Welcome back and I hope that everyone has had a very restful holiday. The term 3 calendar is filling fast with extra curricula events. The calendar is regularly updated and every so often a date for an event may change. Please keep yourself informed by reading the calendar on a regular basis.

This week twelve Year 5/6 students and Mr Thomson are heading off to Somers Camp – this is a great opportunity, which they will thoroughly enjoy. We welcome back Mrs Krissy Walsh (Hill) who will be filling in for Mr Thomson whilst he is on camp.

Reports
Student reports will be out this week. Please do not hesitate to contact the school if you have any concerns about your child’s report. It is important to clarify any issues promptly and for teachers, parents and students all working together for best student outcomes.

This reporting cycle includes the progression point page.

Reports will show learning growth and a grading.

An ‘A’ signifies that your child is working twelve months or more ahead of expected year level.
An ‘B’ signifies that your child is working six months ahead of expected year level.
An ‘C’ signifies that your child is working at the expected year level.
An ‘D’ signifies that your child is working six months behind the expected year level.
An ‘E’ signifies that your child is working twelve months or more behind the expected year level.

Student Illness
The flu season is still with us. If students are unwell it is best to keep them at home where they can rest, drink plenty of fluids and regain their health to be able to come back to school and engage with their learning.

What is influenza?
Influenza, commonly known as the flu, is caused by a highly contagious virus that is spread by coughs and sneezes.

Symptoms usually occur one to three days after infection and may include sudden onset of; fever, chills, cough, sore throat, headache, muscle aches, severe tiredness and loss of appetite.

Ways to avoid influenza
Effective way to protect ourselves and others from illness is good personal hygiene:
• Cover your nose and mouth with a tissue when you cough or sneeze.
• Throw the tissue in a plastic-lined rubbish bin after use.
• Wash your hands with soap and water after you cough or sneeze. Alcohol-based hand cleaners are also effective.
• Avoid touching your eyes, nose or mouth as germs spread that way.
• Don’t go to work if you are unwell and don’t go to school or send your children to school or child care if they are unwell.
